Key Observations about C

1. A dependent clause = a subordinating conjunction of the conj

The dependent clauses look just like the independent clau

marker word (here: since, while, before, after)

Independent Clauses (= SIMPLE Sentences)

I love walking in the park.

Brigitte's family comes from Germany

used to ride my bicycle every day

The producer of the show quit yesterday

Putting It All Together

as multiple licensing deals over the last decade.

Those deals recently catapulted Lego over

Mattel, that made it the top toy maker in the world.

But Lego bricks have also occasionally found their way into laboratories as tools for scientific research. A team at The University of Cambridge, for instance, used the bricks to build synthetic bones for 
their research. Now, researchers at Iowa State University have turned to transparent Lego bricks as a novel, lowcost way to study plant growth. The work, recently published in several 
yournals, argue that the bricks can be used to create highly precise, centimeter-scale systems with chemical

gradients to study how chemical changes 5 effect

root growth.
